Overview of Trykaa and its unique value proposition

Trykaa is an online hyperlocal multi brand platform of western and indian wears for fashion enthusiasts.

USP:

- It's just like offline mall shopping.
- Customers try the clothes without paying for them upfront.
- Trykaa fulfills the fundamental need of why customers shop offline.
- Pay only when it fits you and looks great on you.

Learn how it works here -

Note: Trykaa is not a marketplace

Challenges in online fashion retail

- **For Customers:**

- Customers hesitant to buy mid-range and high range value items online.
- Shopping time extended to days and inconvenient cycles of placing orders and return requests in search of customer's perfect look and fit.
- The issue of customers worrying about getting their money refunded after making a payment.

- **For Business:**

- Returns:
 - Decrease in overall revenue due to delayed restocking of returned items.
 - High operational costs incurred for facilitating return requests of the customers.

Solution – Trykaa's Unique Model

Trykaa's business model allows users to try clothes at home without upfront payment.

- Hyperlocal model - region based catalogs for customers
- Customers can order in bulk without full payment and try at home
- 2 hours to try, purchase and return items
- No return cost for brands/suppliers
- Products once bought after home trials cannot be returned.

Reduces the risk for customers and improves their shopping experience.

- Try variety of styles and designs in bulk at home without payment
- More confidence while shopping for multiple/expensive clothes online
- Be done with your shopping and returns within hours.

Market Opportunity

- Size and growth potential of the online fashion retail market.
 - **Online retail is far behind offline retail in terms of market share and ticket size per purchase order.**
 - **It is because of what offline stores offer. Touch, feel and trial rooms before purchase.**
- Trykaa taps into this vast market with its innovative approach.
 - **Trykaa fulfills the fundamental need of why customers shop offline.**
 - **“Try Before You Buy” provides more confident and risk-free shopping experience to the customers.**
 - **With successful execution, Trykaa can fulfill the primary needs of a customers to visit offline store.**

Who are our customers?

Initial Phase:

- **Corporate employees in urban, high-density areas (like Gurgaon) with high Buying Power and Fashion Consciousness**

In the long run

- **Urban Professionals and Young Adults/Parents**

Overall, Trykaa's flexibility, focus on convenience, and try-at-home model align with the needs of time-conscious, fashion-oriented customers in urban areas, making them the ideal target both in the initial phase and as the business scales.

Very small scale, proof of concept conducted last year(2023)

1. Trykaa selling apparels to female customers in NCR only through website.
2. Social Media Marketing used to reach out to customers.
3. All Orders were delivered without charging any delivery fees.
4. Payment either in cash or UPI at customer location.

Outcome

- Total Order Received - 40+
- Total Order Fulfilled - 13
- Avg Sale - Rs 2177(8 customers)
- Repeat Customers - 2
- Orders delivered in Delhi, Noida, Faridabad
- No theft or orders related risk encountered.
- Most customers took around 45 mins-1 hr to try and finalise the last purchase order.

Customer Purchase Behaviour and Reviews

From Noida

Bought 10 out of 12 items

Best way to shop if you cannot visit offline stores.

From New Delhi

Bought 3 out of 7 items

products quality was good, more than sufficient trial time. Please add more items to your collection.

From Gurugram

Bought 4 out of 9 items

Nice quality products, very nice and polite

Why Apparel Brands Should Partner with Trykaa

- **Increase in sales of mid-range and high value** items along with items in affordable range
- **Build Trust:**
 - Trykaa can help brands build trust much faster. **No-risk while shopping leads to higher customer satisfaction**
- **Data-Driven Insights:** Trykaa collects valuable data on customer preferences and behavior, which can be shared with partner brands.
- **Marketing and Exposure:** In coming future, Trykaa will actively promote partner brands to its user base via co-branding and collaborative marketing efforts.
- **Risk Free** i.e. loss due to damage etc., is borne by us.

Competitors

Traditional E-commerce Platforms

- Examples: Myntra, Amazon Fashion, Flipkart Fashion

Brick-and-Mortar Stores with In-Store Pickup & Return Policies

- Examples: Shoppers Stop, Trends

Waise, any player that eats into our potential revenue by fulfilling similar customer needs is a competitor!

However, Trykaa's main differentiation lies in offering a hybrid try-at-home service for high-quality, mid-to-high-range fashion without upfront full payment.

Why invest in Trykaa?

Back a scalable, forward-thinking solution that modernizes the fashion retail experience in India and potentially beyond.

- First-Mover Advantage in a Niche Market
- Scalability and Expansion Potential
- Attractive Return on Investment (ROI)
 - Equity Growth in an Emerging Business
 - Exit Opportunities
- Revenue Diversification Opportunities
 - Service Fees and Add-Ons
 - Data licensing & Brand Partnerships

What we need?

Capital Investment

- Inventory & Warehousing
- Logistics
- Technology

Strategic Guidance

- Scaling & Operations Expertise
- Growth Marketing
- Industry Connections

Investors/Partners who understand the apparel market's current shifts—like rising customer demands for convenience, quality, and a tactile shopping experience—may identify the potential for Trykaa to transform online shopping habits, filling a gap in the market that is poised for growth. With the right support, we can build a trusted, scalable service that revolutionizes the online shopping experience in India.

Conclusion

- ❖ **Unique Offering:**
 - Trykaa provides customers with an in-home trial experience for premium apparel, combining the ease of online shopping with the assurance of in-person fitting.
- ❖ **Customer Appeal:**
 - By reducing purchase hesitations, we target an untapped market segment, especially within corporate circles where convenience is paramount.
- ❖ **Risk Mitigation:**
 - With identity verification and a partial upfront payment model, Trykaa addresses potential operational risks effectively.
- ❖ **Scalability:**
 - With an initial focus on Gurgaon, we plan to expand as we refine our processes, opening possibilities across major cities
